

# Mobile and Broadband Bundles

## Bundle Affordable Mobile Plans With Your Broadband to Secure Subscribers

### National competitors are after your subscribers

Big players like Spectrum, Xfinity, and Altice have begun offering affordable Mobile Plans to lure away your broadband customers. Even if they're not in your area today, they're expanding aggressively and may be competing with you soon. Don't wait until it's too late!

### Device financing and bundle discounts lock in subscribers

Once customers are lured away by bundled discounts and have device financing agreements in place, it's very difficult to reacquire them.

### Fixed wireless is also a threat

The big carriers like Verizon and T-Mobile are offering home internet via fixed wireless, positioning it as an ultra-affordable "good enough" alternative to more expensive fiber offerings.

## NRTC Mobile Solutions has the answer

As your technology cooperative, we've crafted new Mobile plans to help you combat these threats and launch a pre-emptive strike on your nationwide competitors. With our MVNO solution, you can set up an affordable and reputable fully white-labeled Mobile service quickly, without hiring any additional staff.

NRTC's turnkey service includes marketing support, an ecommerce site, billing, device fulfillment, financing options, and much more. Everything you need to create your own successful Mobile service.

- Low cost of entry
- No need for additional staff
- Simple & fast onboarding
- 100% white-labeled solution
- Access to the latest devices
- Wireless provisioning
- Billing services
- Customer support
- eCommerce platform
- Device financing
- Logistics solutions
